## Integrated Mobile Access Router

- Executive Mobile Travel Kit
- Rugged case with Vibration Dampening
- Small Form Factor, Lightweight design
- External Interface Connectors
- Airplane Approved Travel Bag
- Adjustable Handle
- Zeroize Switch (optional)
- ComCase Components:
  - Cisco Catalyst 2955
  - Cisco 3251MAR
  - Cisco 3201FESMIC
  - Cisco 3201SMIC
  - Cisco 3201WMIC (2)
- Optional Components:
  - IPE-10M/H Encryption Card
  - MobileCom Cellular Modem
  - GPS Card
  - Intelligent Video Server
  - 3rd Party Products
- Includes AC & DC Power Cables

The Western DataCom ComCase® E includes all the components necessary to operate a mobile IP based application. Instantly turn up a WiFi hotspot with reach back to your corporate network or tie into wired infrastructures for connectivity.

The ComCase® E can be integrated with the Western DataCom MobileCom family of cellular modems that is capable of operating on Verizon, Sprint, Cingular and T Mobile nationwide networks. In addition, it supports the Western DataCom IPE-10M/H for securing mobile communications using 256-bit AES counter mode encryption.

The ComCase® E uses only approved components and is designed for rugged travel applications. Measuring 5" x 12" x 12"; it fits into overhead storage. Its small size allows it to fit into numerous carrying cases, such as a back pack or a wheel bag.

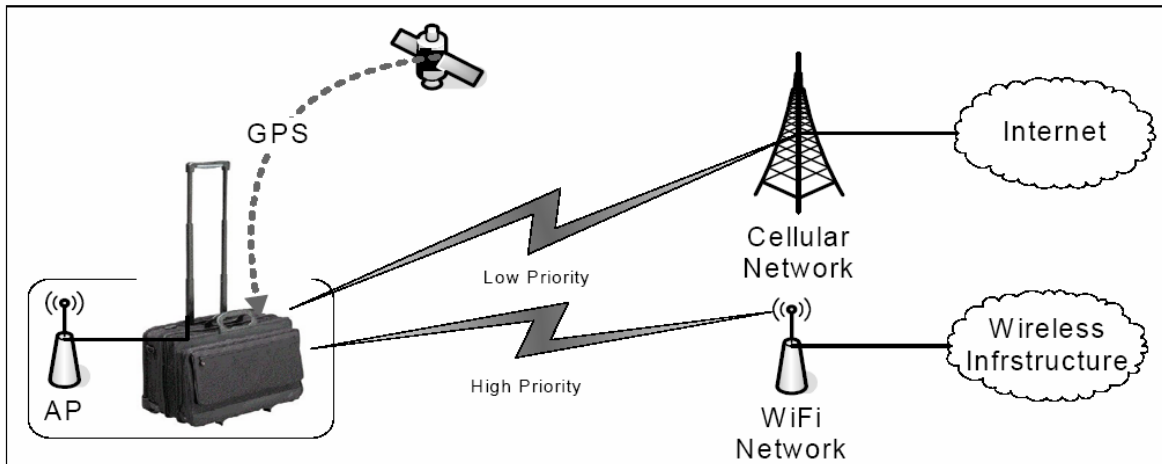

Western DataCom is a premier Advanced Technology Partner for the Cisco Mobile Access Router. Enhanced support options are also available for the ComCase® E, as well as for custom configurations.
